

Udemy Data Analysis

By [Oluwaponmile Micheal Adedotun]

Project Description:

- *To better understand the pricing and subscriptions data of Udemy courses (for four different subjects) and identifying trends and patterns*
- *This will help us to:*
 - *Identify for which subject more courses should be created*
 - *Create targeted strategies to increase the company revenue*

Key questions:

1. What are the total numbers of subscribers in each subject?
2. How does the average content duration/price/number of students vary across different subjects?
3. How many courses are free and paid for each subject?
4. What is the average price of web development courses at different levels?
5. What are the 20 most popular courses? Also, include the following information:
 - Their level
 - Whether they are free or paid
 - Whether any are free beginner courses,
 - and the duration of the courses.
6. Does content duration impact the price of the course?

Findings & Insights

1. What are the total numbers of subscribers in each subject?

Total subscribers

2. How does the average content duration/price/number of students vary across different subjects?

Average number of students taking Web Development is far greater than the rest of the subjects, which means, we can look into adding more tutors for Web Development, dividing into two groups to ensure the school standard, while still make it conducive enough for the students.

3. How many courses are free and paid for each subject?

Graphic Design & Musical Instruments does have the lowest level of FREE courses across all subjects, while Web Development & Business Finance has the highest level of PAID courses across all subjects.

4. What is the average price of web development courses at different levels?

Average price of Intermediate Level for Web Development is way higher compared to the rest of the levels, aside Beginner Level that seems a bit closer.

5. What are the 20 most popular courses?

These are the 20 most popular courses across all subjects.

6. Does content duration impact the price of the course?

Content duration does of an impact on the prices of the courses.

Summary

Summary of findings:

Based on your findings, write down a summary of 3 to 4 key insights from the analysis. We'll help you get started:

- **Top 5 courses:**

- *Almost 68% of subscribers come from Web Development and the top 5 courses are for Web development as well*

- **Business Finance vs Web Development:**

- *Business Finance and web development have almost equal number of total courses (1155 vs 1203), but web development course are almost 2x in content duration and have 4x the average subscribers*

- **Course Pricing:**

- *What are your key findings in relation to the course prices?*

Actions & Recommendations

Recommended actions:

Product recommendations:

- *Focus on getting more paid course by creators in web development.*

Marketing recommendations:

- *Our data tells us that our web development courses are most popular and people are willing to pay for it. Marketing and advertising campaigns should therefore be focus more on web development, while still carry all other subjects along for more recognition.*

Thank you!
